

CATS HAVE NINE LIVES...

56%
of vet nurses
have needed
mental health
support.

50%
of veterinarians
show signs of
burnout.

1 in 6
working in
veterinary care
have experienced
suicidal thoughts.

YOUR VET ONLY HAS ONE.

Let's work together for your pets.

Dr. Sophie Putland was a daughter, a sister, a friend, and a beloved veterinarian who tragically took her own life in 2021. Her story reminds us of the quiet pressures many veterinary staff carry while caring for our animals every day. As pet owners, the most powerful thing we can offer is kindness. Small moments of patience, understanding and respect help support the people who dedicate their lives to caring for our pets.
